Dear Member of Staff at South African Police Services and other South African Admin

Because matters affect publicising and active monitoring, the 2020 investment-inspections have generated additional inconvenience, which also directs into the South African Police Services and its strange looking, questionable appearance in this regard, I notice it as mandatory, essential, providing you with the unequivocal, unique opportunity to look at this matter that also directs into a regulated Financial Service Provider in the Republic of the investment, which had been paid off in full & total **from foreign cleared funds to South Africa, paid by non South Africans**, to her full cognisance and recorded awareness!

Consequently, I would like to draw your attention to below and perhaps additional carefully selected details, publicised on my website you can easily access by using the blue links before the disclaimer. If you look out for >Standard Bank SA< in the menu you might find it convenient browsing the sub-pages, too. We enjoy an increasing, considerable number of followers.

I am more than confident, ever, that it is not just in the investor's and his lawful successors' interest to first of all get transparency into the strange looking, very questionable deeds entries after the Steffen Wolfrum entry - in the South African deeds records - but also get back to justice and fairness, last but not least, good sustainable admin-performance in good faith protocol, complying to International Treaties and Conventions, **favouring both the South African Population and any lawfully entering International Visitor, not to disregard International Investors to South Africa, quite?**

I am further confident that The current Minister of the South African Police Services wishes to know about this Investment-Experience for very simple, legitimate reasons, quite so?

I am here to assist - many thanks

Sincerely Yours

S. Wolfrum T/As greenpower1wo
