In regards to the **International - Anti - Corruption - Day of the United Nations, the 9 December 2010**, the Secretary of the aforementioned Powers, Ban-Ki-Moon, appealed to the International Community, worldwide, in particular to individuals, officials and entities, in responsible positions, in Industries, Governments, as well as other administrative Offices, to remember the importance of essential responsibility, combating corruption, continuously, at all times.

The United Nations 2030 Agenda for Sustainable Development, under Goal 16, calls on all countries to promote and develop accountable and inclusive institutions at all levels, notably, by reducing bribery and corruption.

Subject: Re: WESTVILLE CAS 73/01/2018 :FW: obligation reminder, undesired occupation of 15A Blairgowrie Road; 3629 Westville to South Africa

Dear Sir

Regardless how much I respect your hospitality and intention to take notice of my point, having hosted the meeting we had in your office on 30th January 2019, it is to say:

1. At aforementioned meeting you as well as your legal adviser, also attending others, all fail to provide the requested essential financial record of an alleged "Sale in Execution" of our investment to South Africa, in fact your legal adviser had the guts to wish me good luck with discovering aforesaid essential, which clearly would have been South African Police Services' obligation to discover aforesaid, non of you have done till to day, unequivocally, quite?
2. You have been introduced to verbal records, proving - besides other solid evidence - that Mr C.P. Clele knew very well the investment he apparently purchased from Mr F. Hooper had Municipality records for services provided to the Investment to South Africa issued to the investor to South Africa, being myself, **at the time when Mr Cele together with Standard Bank South Africa managed to get the dubious deeds amendments after the Steffen Wolfrum entry, we seek transparency about.**
3. Standard Bank South Africa also knew aforesaid, very well because this is the Service Provider who served the eThekweni Municipality at the time of the mysterious deeds entry in the Bank's favour again, **despite this regulated Financial Service Provider, is the very first in the lines of South African admin offices having known that this land and property being paid to aforesaid, private business in full and total from cleared foreign funds to South Africa by non South Africans.**
4. All requested essential transparency-request-issues below, you appear responding to, would be very simple to provide if - as to your opinion - matters had no criminal aspect but would be of *civil* nature, quite?

Sir, we appear having a very serious misunderstanding about your duties you are entertaining in terms of the mandate you have been given in relation to national relations as well as international relations and it unfortunately appears to me that we seem looking at, now, several inconveniences within the area you might be responsible for, which you appear protecting activities that have nothing to do with fairness, transparency nor good, sustainable admin performance in good faith protocol, nor "living in harmony" quite?

Consequently, let me ask you again to get your assignment done correctly - the South African Prosecution never confirmed your claims - by the way, reason why we have addressed matters to the Hawks this year, not for fun but to assist getting things improving to the better. This is a voluntary assistance not compromising on my neutral
